Citizens' Loss May Be Billion

Pictured at the top is the old-fashioned boarding house at O'Fallon, Ont., where Martin Inuit flower rights, former president of the billion-dollar Inuit Utilities Co., and a brother of Samuel Inuit, is living with his wife. "I have an money—no penny," he told newspapermen. Below, Chas. A. McCulloch, left, and Edward N. French Pilots Lost on May 9, 1927—Strange Lights Seen

CURLING, Sept. 24.—Possibility that traces of the lost French fliers Nungesser and Coli had been found on Blomdon, a mountain on the north side of the Bay of Islands, 20 miles from the coast, was considered today as reports pressed two skeletons and the remains of an aeroplane had been found.

Although it was not possible immediately to confirm the report, it was revealed that on the day the French fliers were lost—May 9, 1927—a light similar to that caused by an explosion was reported seen in the vicinity of Blomdon by residents of Bay of Islands. No investigation was made at the time, however.

The reported discovery of the plane and skeletons resulted from the activities of a searching party which had been trying to locate a man named French who had been missing for several days.

Capt. Charles Nungesser and Capt. Francis Coli, veteran pilots of the war, began off from Isle Beaufort, 20 miles from New York, they were not seen again.

They were flying in the face of unfavorable weather that turned to a snow storm before they could have crossed the Atlantic. They generally believed that they crashed in the Newfoundland.

Policeman Denies Truth Of Story

ST. JOHNS, Nfld., Sept. 24.—"There is no truth in it," stated Police Sergeant Louis of Curling last night in a statement to the effect that traces of the lost French fliers Nungesser and Coli had been found on Blomdon, a mountain on the north side of the Bay of Islands. The sergeant offered no explanation in his telegraphed reply.
